DEEP WATER SWIM TEST & POOL SUPERVISION GUIDELINES FOR CHILDREN

DEEP WATER SWIM TEST GUIDELINES	For the safety of our members and guests, all children under the age of 16 must successfully pass a deep water swim test before they are allowed to swim in deep water. Children that do not pass the swim test are not allowed in the deep end of the pool (even when accompanied by a caregiver). They must always be within arm's length of an actively involved caregiver who is in the water with the child or be wearing a properly fitted US Coast Guard-approved lifejacket.
SWIM TEST FREQUENCY	Swim tests will be administered the first time a child visits the pool and records will be kept on file for one calendar year. Prior to entering the water (for open OR lap swim), all children under the age of 16 will need to check in with the front desk for a wristband. If lifeguards are concerned about swimming ability, additional testing will be administered.
SWIM TEST TIMES	Swim testing is available during all "Open Swim" times, if all on-duty lifeguards are not engaged in pool surveillance. If all lifeguards are engaged in pool surveillance, non-swim tested children will need to follow rules for children unable to pass the swim test.
SWIM TEST DESCRIPTION	The deep water swim test includes: 25 yard swim with a 30 second period of treading water mid-pool. Test should be done shallow to deep, no touching the sides, walls, bottoms, or anyone else.
POOL SUPERVISION REQUIREMENTS FOR CHILDREN	Ages 7 and under Must have an actively engaged adult in the water within arm's reach at all times, regardless of swimming ability or presence of a lifejacket.
	Ages 8-10 Must have a designated caregiver supervising in the building, but must follow the swim test guidelines outlined above.
	Ages 11-16 May be in the pool area without a supervising adult, but must follow the swim test guidelines outlined above.
